PROJECT

(1) Monitoring of IV fluids level Using GSM Modules

:- In ECE249 we make a project related to medical that measures the weight of IV fluids level and when

Is low at mention level then information goes to nurse or doctor and we take lot of instrument like Arduino.

(2) SRS For LPG Booking & Management System

:- In this SRS we use lot of diagram to show how a app run its backend parts work how to manage when user arises a request then how to handle our system that request and which step work 1st which after that means we are understand the logic of app how its inside

TRAINING

CDP (Community Development Project)

:- Where I Teach Python To The Student Of 10th When I Get Summer Vacation And Get Lot Of Confidence This Training And Also Collect Geotag Pictures.

CERTIFICATE

- Python from Sayler Academy,Infosys SpringBoard
